LORIMER PROBE NEAR ITS CLOSE

Last of Committee's Witnesses to Testify This Week.

DEFENSE HAS FIFTY TO CALL

Representative Alschuler and State's Attorney Wayman and Assistants Will Be Among the Witnesses This Week.

Chicago, Nov. 14.—The last of the committee's witnesses before the Lorimer investigating committee are to be heard this week, according to the present plans. This will leave fifty witnesses who have been called by Attorney Haneey to be heard the following week, in which the committee will sit in Chicago and in such time as may be necessary in Washington.

The program of disposing of the witnesses has been mapped out, the attorneys now believing that they are sufficiently far along to see an end in the inquiry, which has dragged out over more than three months of actual hearings.

State Senator Albert E. Isley will soon complete his testimony. After him will come Representative George W. Alschuler, the present minority leader of the house and in the previous session its most bitter anti-Hopkins man. State's Attorney Wayman and several of his assistants are to complete the work.

It is possible the committee will also call Attorney Alfred Austrain, who presented the case at the former United State senate inquiry, to ask him why certain witnesses were not called at that time. Several labor leaders of the state who were mentioned in the testimony of Charles A. White also may appear as witnesses.

State's Attorney Wayman is expected to clear up in a short time several points which have perplexed the committee. He has been charged repeatedly by the attorney for Senator Lorimer with being in a plot to ruin the senator and of using third degree methods toward members of the legislature to force them to confess.

The state's attorney declares that his testimony will disprove all these charges and show what actually took place in the grand jury room.

SLAIN BY HIS WIFE

Michigan Man Called by Telephone to House and Shot Down.

Coldwater, Mich., Nov. 14.—Richard Hurst, fifty years old, was shot by his wife and instantly killed. The couple had been living apart for some time, the husband staying at a hotel and the wife occupying the family residence.

Responding to repeated telephone requests, Hurst called to see his wife. He had just taken a seat in the house when Mrs. Hurst fired a shot at him with a revolver, the bullet taking effect in the back of the head. After the shooting Mrs. Hurst summoned the sheriff and told him the details of the tragedy. She was placed in jail.

The latest discovery in domestic science is the remarkable new system of cooking brought out by M. Nicholas Soyer, chef of the celebrated Brooks' Club, of London, England, known as "Cooking in Paper Bags." It is claimed that the system is labor-saving, doing away with the washing of pots and pans; that it keeps the smell of cooking from pervading the house; that it makes every dish more savory and nutritious than is possible with the pot-and-pan system of cooking; that it is economical, the food weighing practically the same when drawn from, as when put in, the oven; that it makes possible hygienic cooking, no germ-laden cooking utensils being employed, and that it means quicker cooking, lower fuel bills as a consequence, and, because of better cooking, better health.

The Chicago Daily News is exploiting the system in great detail and announces a series of descriptive articles and practical recipes, by the new system, to run every day for a period of two months. The subject is, of course, of the most practical interest to every household. Our women readers can get The Chicago Daily News at Interurban News Stand.

AUGUSTA FARMER LOSES FINE FRESH PORKER —THIEF UNKNOWN

An Augusta farmer by the name of Kent was terribly surprised and considerably disappointed Sunday morning when he arose and went to the barn to get some nice fresh pork chops from a fat young porker he had killed late Saturday night, when he found that some thief had entered in the night time and taken not only his porker but the hook and gambrel and other butchering tools and a bushel of wheat. The officers were notified of the theft but the miscreant has not been located as yet.

Cleary Students Are Addressed By Rep. Rankin

About two hundred young men were present at the Cleary College Friday for an address delivered by Rep. H. C. Rankin. He said, "To look at this intelligent body is to size up the young men favorably. Quite a large proportion of you have had some business experience. They come to the college to brush up after coming in contact with the business world. These make the very best students. They know what they are coming to school for. They put in full time and make the very most of their opportunities.

"The Cleary, in all its best years of usefulness of the highest order was never better than today, never in such shape for turning out finished products as now. Every year, seemingly, the college invites to its open doors better timber than formerly. There is no 'stand pat' in the Cleary, it is onward, ever onward, to higher usefulness by reason of better preparation for business."

He paid a fine tribute to Prof. Cleary who for 28 years has been the president of the institution and has worked interestingly.

"Such perseverance deserves success, he said, "and every effort of President Cleary to build his college better and stronger deserves the hearty cooperation of every business man in Ypsilanti."

The Websters, who were to furnish materials to the contractors, Cole and Wenzel, for the Masonic Temple allege that there was no stipulation as to delivery inside of 30 days as the contractors claim and they assert that they delivered $2,425 worth of material instead of about $2,100 as Cole and Wenzel allege. They claim they delivered it on time and that Cole and Wenzel have no kick coming.

GLEANERS STILL DEMAND FREE PHONE SERVICE

The second meeting of the Washtenaw Arbor of Gleaners, in the interests of free service to Ann Arbor and improved service all along the line, was held Monday evening in the Superior Town Hall. While some of those present were of the opinion that the service rendered the country lines was more prompt, probably as a consequence of the thorough agitation given the matter, no one was found who was willing to desert the cause to which they have pledged themselves; namely, free service to Ann Arbor.

It developed that C. J. Given, district manager, wished to confer with the gleaners on the matter and, accordingly, a committee was appointed for that purpose, consisting of James Wilbur, E. R. Twist and Charles Thumm. Within a week this conference will probably be held.

A meeting to listen to the result of this conference will be held in the Town Hall on the evening of Monday, November 27.

Veteran Engineer Starts On 33d Year

Sunday, November 5, 1911, C. C. Vroman completed his 32d consecutive year as engineer at the Normal College. He has seen every addition to the original main building put up, having worked there first as helper when the east wing, now the front of the building, was built. The masonry was done by Thayer & McCauley and the carpentry work by Harry George. The next year he worked at the paper mill and then went to the Normal as engineer and head janitor.

From year to year Mr. Vroman's duties increased with the growth of the school, until, finally, the present arrangements were made and John Stevens took charge of the buildings and grounds. Janitor work was divided among many and Mr. Vroman was allowed time for his own line of work. Meantime he has seen the west, north and south wings added to the central building, the gymnasium, training school, Starkweather Hall and the science building put up, and he has seen the faculty change till now he himself has been there the longest of anyone connected with the institution. Thousands of Normal students remember his many kindnesses and will be glad to learn thatMr. Vroman is still giving faithful service to the college and takes as keen an interest as ever in the welfare of the students.

WILLIAM J. GAYNOR

New York Mayor Who Refuses to Reinstate Strikers.

NURSE TELLS OF DEATH

Woman Who Attended Frank Brinkamp Makes Statement.

She Gives Evidence Which Coroner Considers of Great Importance in Vermilya Case.

Chicago, Nov. 14. — Evidence that Coroner Hoffman considers will be of importance at the trial of Mrs. Louise Vermilya, charged with the murder of Patrolman Arthur F. Bissonette, was secured in a statement from Miss Louise Holland, one of two nurses who attended Dr. Frank Vermilya, who died under peculiar circumstances and in whose body was found arsenic. Miss Holland made assertions which Coroner Hoffman says bear out in part the disposition made by Miss Elizabeth Nolan, who was engaged to marry Brinkamp.

Miss Holland declares that Mrs. Vermilya was constantly at the bedside of her son, who was declared to be her favorite. She also corroborated Miss Nolan's statement that Brinkamp called for mineral water and was particular about having it and not spring water.

Saturday the coroner secured from C. C. Boysen, the undertaker, a statement that Mrs. Vermilya prepared food in her own apartment and carried it to her son.

SCOUTS POISON VERDICT

Rock Island, Ill., Nov. 14.—Miss Elizabeth Cameron of Moline, the nurse who attended Frank Brinkamp, son of Mrs. Louise Vermilya, in his illness the last ten days of his life, says that she saw nothing about the Vermilya home that would arouse suspicion that the young man was poisoned.

When she was called to attend Brinkamp she says he was suffering from a relapse after a severe attack of typhoid fever. From the first she says his condition was such that death was inevitable.

VETERAN RURAL MAIL CARRIER HAS RESIGNED

L. M. Buland who for the past twelve years has been rural mail carrier on Route No. 1, has handed in his resignation to Postmaster Lister after a long and faithful service. Mr. Buland entered Uncle Sam's service when the rural mail route was merely an experimental venture which the United States government tried out in a number of cities in the country, Ypsilanti being among the number of places selected. The need of such an enterprise was soon recognized and rural mail delivery was soon an established law. Mr. Buland's salary at first was $350 per year. Out of this sum he was obliged to keep his horse and wagon. During the entire twelve years, with the exception of two months last spring, either Mr. Buland or his son has continuously carried the daily mail on this route. Who his successor will be is not known as the matter lies entirely with officials at Washington and not with the local office. In writing to the assistant postmaster of the division of the rural mail delivery, Postmaster Lister in requesting the appointment of a new carrier referred to Mr. Buland as kindly, genial, faithful, accommodating and efficient and one who was leaving the service with the sincere regret of the local office and the patrons of his line.

OUTCOME DOUBTFUL ON SCHOOL QUESTION—375 VOTES CAST UP TO 3 O'CLOCK

At quarter before three o'clock this afternoon 375 votes had been cast on the school question, and the prospects contained a degree of encouragement at least for those laboring for the appropriation for the new building. Fully a hundred more were expected before the time for the polls to close at four o'clock. It is felt that the margin either way the election turns will be a small one.

The articles for the country store will be purchased with funds from the chapter and not solicited from the merchants as was done last year.

M. James. A special meeting will be held next Monday evening at which time candidates will be initiated. A banquet will be served at six o'clock and a dancing party will follow the initiation.

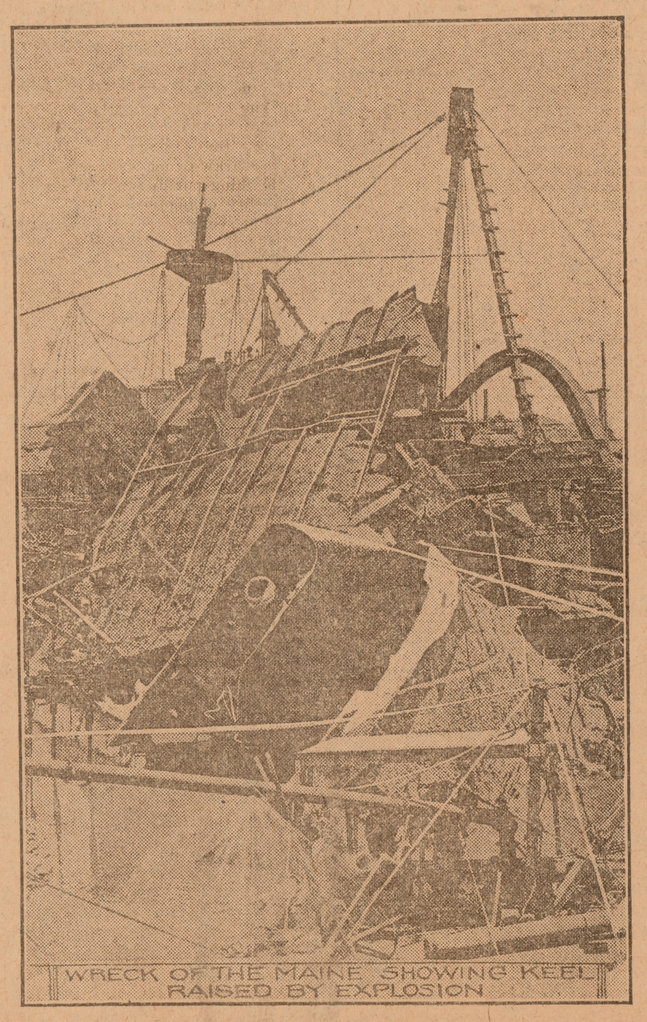
Entire Keel Of The Battleship Maine Is Now Visible; Part Of Bottom Gone



WRECK OF THE MAINE SHOWING KEEL RAISED BY EXPLOSION

Havana, Nov. 14.—The keel of the Maine may now be traced for its entire length, and much of the bottom of the vessel is exposed. The engineers expect to be ready for the board of inspection between Nov. 15 and 20.

A considerable stretch of the bottom to the port side is entirely missing. A portion of the keel is much higher than the rest of it, clearly indicating that it was forced upward by an outside explosion.

MISSIONARIES IN FLIGHT FOR LIFE

Methodists and Presbyterians Leave Troubled Zone.

WOMEN AND CHILDREN SAFE

American Workers in Nanking Not Reported After Wholesale Butcheries by Imperial Soldiery—Foochow and Nanchang Captured.

New York, Nov. 14.—Cablegrams received at the offices of the Methodist board of foreign missions and the Presbyterian board of foreign missions told of the flight of the women and children from the mission compounds of these two denominations in Nanking, Hankow and Hwai-Yuen in the revolutionary zone in China.

The wires said that from Nanking, where the Manchu soldiery carried on their wholesale butcheries last week, only the women and children had reported at Shanghai. The cable to the Presbyterian board told of the flight from Hankow of men as well as women.

The following cablegram was forwarded by Bishop James W. Bashford of Shanghai to the main office of the Methodist missions here:

"Empire convulsed. Foochow and Nanchang captured. Nanking indecisive. Nanking women Shanghai. Missionaries safe, including west China, Oct. 25. Hingwa conference postponed."

The board here assumes that "Nanking women Shanghai" means that the wives of the missionaries there and the female mission workers had made their way down the Yangtse river to the foreign city on the coast. The words referring to west China were taken to mean that up to Oct. 25, which was the last date of receipt of news of missions in Szchuan province at the head of navigation of the Yangtse river, no harm had come to the missionaries in the Szechuen conference.

THE PENALTY WHICH THE PRESENT AND THE FUTURE PAYS TO THE PAST.

It is unforunate for the boys and the girls of today and tomorrow that most public questions affecting them are so often settled in terms of yesterday, rather than in terms of today and tomorrow. It is very difficult to get from the average citizen an impartial audience for a current problem The average citizen—and we are all in this class—has neither the time nor the inclination to investigate with painstaking care into all of the details affecting a current question. They have had certain experiences—no two of us alike—during their lifetime, and those experiences are more than likely to be a prolific parent of prejudice, and this very fact makes it difficult for the question which has so much to do with the welfare of the rising generation and future generation to get a square deal at our hands.

Those interested in better educational facilities have always had to contend with those of us who insist that "what was good enough for me is good enough for my children. The saw and the axe were a sufficient gymnasium for me, and I think they should be for my children. We have agriculture demonstrated in the fields all about us, why teach it in the schools?"

We believe that it would be far better for our boys and girls and our city in the future if we would resolve all doubts which we may have, whether serious or otherwise, in favor of the boys and girls of the present and the future; or, or in other words, in favor of the future welfare of the city. The editor came away from his home town with rather an optimistic outlook for the future of Ypsilanti, and he looks back today from his winter home in the Southland with a feeling that there is but one discordant note in the horizon, and that discordant note, strange to say, is directed at the very institution which has done more than all other influences combined to make and sustain Ypsilanti; namely her splendid educational facilities. As the editor went about town and talked with various citizens, he came away feeling that there was danger that all doubts on this important school question would be resolved in favor of its effect upon the pocketbook, rather than in favor of its effect upon posterity, which view, we feel, should prevail.

In most everything, when we do not feel qualified to pass upon a question ourselves, because of our limited horizon and our limited experience and our limited knowledge, we seek out somebody who is recognized as knowing, and then we place our case in his hands, whether it be a case of law or medicine or engineering or mechanics, or hygiene, or civics, or what not. Is it fair to reverse our reasoning on the school question? Unless we know we know and can prove it, is it fair for us to go to the polls and discredit the advice and the judgement of those whom we have employed to know the needs of our city, educationally? We believe it be a millstone about the neck of any municipality when it insists upon measuring everything by the pecuniary or materialistic yard-stick.

The state of South Carolina on one occasion boasted of the low per capita cost of education in that state and compared it with the apparant pride with the much more per capita cost of education in the state of Massachusetts. But, after the state of Massachusetts admitted the much higher per capita cost of education there, and then pointed to the per capita production of the citizens of Massachusetts and the value of this per capita production, as compared with the per capita production of the citizens of South Carolina, we have heard no further comment from the citizens of South Carolina. Massachusetts is thoroughly imbued with the conviction that a liberal investment in educational facilities is a wise investment for the state, and we believe this is equally true of any subdivision of a state.

We want to grow industdially. We complain of our boys and girls going away from home to locate. We believe it to be a wise pecuniary investment to furnish the facilities for making citizens whose constructive abilities would naturally by preference give expression to that increased constructive ability in their home town where they would naturally prefer to remain and live among their friends. We fear some of our citizens who, by reason of not having any children of their own, and perhaps no grandchildren, have been tempted to place the emphasis upon property, rather than upon prosperity. But even these people we believe are bound to remember that the schools have been the chief instrumentality in creating and sustaining property values in Ypsilanti, and without which taxes would be much higher than they are today and without which, properly encouraged, taxes are bound to become much higher in the future; for the cost of government goes on forever, like the brook with a tendency to increase, rather than diminish.

The problem in taxation is to increase the value of the property taxed; to increase the facilities with which we can procure the wherewithal to pay taxes. If property values shrink, the rate of taxation commensurately expands, and so, from the standpoint of taxation, it is a wise public policy to promote that which has and does create and sustain property values.

And we are bound to remember also that we, as a city, are in competition with other cities. Our sister city of Ann Arbor has constructed a magnificent high school building. It sees in other words, the proper setting of a splendid city school system about the campus of the great university, and we should repeat this principle, in our judgment, in Ypsilanti, so that it may be widely known and realized that Ypsilanti offers an ideal home for any citizen where his children can procure a complete education, from the kindergarten to multiplying degrees and at a comparatively low cost. If we treat the school question thus, we believe it will pay large dividends on the investment. And then, if we supplement this by a municipal and industrial policy which will enable the citizens we invite to come and make his home with us, to prosper pecuniarily while educating his children, the future of Ypsilanti is established and taxes will take care of themselves.

But Parisian Sage Overcame Miss Kruger's Hair Troubles

PARISIAN SAGE is not guaranteed to grow hair on bald heads but it is guaranteed by the well known druggist, Duane Spalsbury, to stop falling hair, eradicate dandruff and stop itching scalp, or money gack. Sold in every town in America by leading druggists for 50 cents a bottle. Read Miss Kruger's letter.

"PARISIAN SAGE is the best hair grower and beautifier and dandruff cure. I lost all my hair through typhoid fever; I was almost baldheaded and my scalp was as sore as could be. I tried everything, but in vain. Finally I tried PARISIAN SAGE, and after using one bottle my hair started to grow and has grown three or four inches inside of two months. I advise every woman who wants beautiful hair to use PARISIAN SAGE." Miss Meta M. Kruger, Browntown, Minn.

CHANGE IN WOMAN'S LIFE

Made Safe by Lydia E. Pinkham's Vegetable Compound.

Graniteville, Vt.—"I was passing through the Change of Life and suffered

from nervousness and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter."—Mrs. Chas. Barclay, R.F.D., Graniteville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been curing woman's ills such as inflammation, ulceration, fibroid tumors, irregularities, periodic pains and nervous prostration, and it is unequalled for carrying women safely through the period of change of life.

Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice. Her advice is free, and always helpful.

CLEARY MEN WIN FROM PONTIAC

The Pontiac high school met its Waterloo at the hands of the speedy Cleary team at the game in Pontiac Saturday the score being 5 to 3 in favor of the latter.

The Ypsi lads had it over the Asylum city bunch all the way. Neither team scored in the first quarter although Capt. Snyder pulled off a 50–yard run in the first five minutes that looked like an easy touchdown but Pontiac's captain got him on the 30–yard line.

In the second period Pontiac scored for the first and only time on a place kick, the only one that was good out of four trials, though the last looked good, had, Richards, Ypsi's stone post, not blocked it. Ypsi threatened continually during this session but did not tally.

In the third quarter came Ypsi's only score when she slipped over a touchdown. "Big Moose" Meredith carrying the pigskin. Synder missed goal.

In the fourth quarter Ypsi received several hard scares as it was during this round that Pontiac worked some good looking passes that netted large gains but could not make them count. Ypsi showed up strong in this final session and looked good to score several different times but failed to register.

The Cleary team demonstrated what a bunch of first year men could do and much credit is due Coach Hunt for his work in building up the machine he can now put in the field.

Pontiac plays a return game here Saturday and Ypsi rooters who saw Saturday's game are confident that their team will win this next contest by a much larger score. Meredith showed great form as a ground gainer going through for 8 and 10 yards whenever called. Clement and Lindsay, the latter a new man, show up strong on defense. Lindsay did some good tackling and recovered several punts in good style.

Final score—Ypsi 5, Pontiac 3. Officials—Mackey, U. of M., referee, and Bell, Ypsi, umpire. Time—4 10–minute quarters.

WALKOVERS LOSE FIRST GAME TO REGAL BOWLERS

Monday night the Walk–Over team met its first defeat of the season when DeWitt's Regals beat them two out of three games. The Walk–Overs rolled very poorly in the first and last games and were easy picking for their opponents.

Thompson made high score with 181 and high average with 171. Comstock also did good work while for the Walk–Overs Ziegler and Paton did the best work. The score in detail:

Walk–Overs.

Zeigler	158	169	170
Christensen	116	169	156
Heath	150	155	102
Paton	128	180	135

SENIORS AND SOPHS HAVE BEST TEAMS

The high school supremacy among the football teams of the upper classes has been proved and claimed by the seniors. In the game between the seniors and juniors to determine that honor the winners fought hard for they won and it was hardly less than fate that deprived the juniors of an equal score on a forward pass. The pass was decided over the goal line, hence no good, but it was uncomfortably close and looked bad for the seniors for several seconds.

The championship of the lower classes has gone to the Sophomores so the two high classes or their respective divisions are winners. It is proposed now to have a star team picked from the whole school to play three outside games. This matter has not been decided upon definitely, but it is very probable.

The Junior–Senior game was no doubt the best of the season and every man did excellent work. Three times the ball was stoppel within the five–yard limit of the senior goal line and many star plays by various men featured the game with particular interest.

A Mail Carrier's Load

Seems heavier when he has a weak back and kidney trouble. Fred Duehren, mail carrier at Atchison, Kansas, says: "I have been bothered with kidney and bladder trouble and had a severe pain across my back. Whenever I carried a heavy load of mail, my kidney trouble increased. Some time ago, I started taking Foley's Kidney Pills and since taking them I have gotten entirely rid of all my kidney trouble and am as sound now as ever." Foley's Kidney Pills are tonic in action, quick in result. No matter at what stage your kidney trouble may be, take Foley's Kidney Pills at once for quick and permanent relief. Weinmann–Matthews Co.

DOUBLY PROVEN

Ypsilanti Readers Can No Longer Doubt the Evidence.

This Ypsilanti citizen testified long ago.
Told of quick relief—of lasting benefit.
The facts are now confirmed.
Such testimony is complete—the evidence conclusive.
It forms convincing proof of merit.
Mrs. Thomas Barnum, 23 Water St., Ypsilanti, Mich., says: "A heavy cold which settled on my kidneys affected them and my back became so painful that I could not stoop or lift. I neglected to treat the trouble and as a result, it became serious. When I found how bad my case really was, I began using medicine, but then it was too late and I got only temporary relief. It was difficult for me to sit down and just as hard to get up, owing to sharp twinges through my loins. The secretions from my kidneys were also unnatural. Finally I began taking Doan's Kidney Pills, procured at Weinmann–Matthews Co.'s Drug Store, and the first few doses benefited me. By the time I had finished the contents of one box, my pains and aches had all disappeared and I felt like a different person. I think that I am justified in recommending them." (Statement given in 1906).

Time is the Test.

Mrs. Barnum was interviewed on September 20, 1911, and she added to the above: "I cheerfully confirm my former endorsement of Doan's Kidney Pills, for they made a permanent cure in my case. I have had no further need of a kidney medicine since 1906."

A LIBERAL OFFER

WE GUARANTEE TO RELIEVE DYSPEPSIA. IF WE FAIL THE MEDICINE COSTS NOTHING.

To unquestionably prove to the people that indigestion and dyspepsia can be permanently relieved and that Rexall Dyspepsia Tablets will bring about this result, we will furnish the medicine absolutely free if it fails to give satisfaction to any one using it.

The remarkable success of Rexall Dyspepsia Tablets is due to the high degree of scientific skill used in devising their formula as well as to the care exercised in their manufacture, whereby the well-known properties of Bismuth-Subnitrate and Pepsin have been combined with Carminatives and other agents.

Bismuth-Subnitrate and Pepsin are constantly employed and recognized by the entire medical profession as invaluable in the treatment of indigestion and dyspepsia.

The Pepsin used in Rexall Dyspepsia Tablets is carefully prepared so as to develop its greatest efficiency. Pepsin supplies to the digestive apparatus one of the most important elements of the digestive fluid. Without it the digestion and assimilation of food are impossible.

The Carminatives possess properties which aid in relieving the disturbances and pain caused by undigested food. This combination of these ingredients makes a remedy invaluable for the complete relief of indigestion and dyspepsia.

We are so certain of this that we urge you to try Rexall Dyspepsia Tablets on our own personal guarantee. Three sizes, 25 cents, 50 cents, and $1.00. Remember, you can obtain Rexall Remedies only at our store—The Rexall Store—Weinmann-Matthews Co., 118 Congress street.

What Is Worth-y Merchandise?

Not merely the high-priced article.--High price doesn't always mean high quality.

Not merely the low priced goods.--A low price often points to skimped material.

Not merely showy items.--A lustrous glaze may conceal a defect.

Not merely goods of wide publicity.--Expensive advertising adds to selling cost.

The fire test for quality goods lies in that perfect satisfaction which compels people to come back for more, as they do in the case of

Comstock-Becker Underwear or Buster Brown Hose

We are absolutely proud of our Ladies' Misses' and Childern's Underwear. There is positively no better fitting underwear than ours—but plenty that don't fit as well and costs as much.

For quality there is none better—but plenty not nearly as good that costs as much. There is much more to be said in favor of our big line of underwear as worthy merchandise. We don't ask you to buy it. But we do invite you to inspect it and compare our prices. Yours for winter comfort,

Comstock-Becker Dry Goods Co.

Only One More Day Of Our Big Demonstration

OF WAGNER'S HIGH GRADE ALUMINUM WARE

Demonstration Closes Wednesday Evening

THIS WILL BE ONE OF THE BIGGEST AND BEST DEMONSTRATIONS OF HIGH GRADE ALUMINUM WARE EVER HELD IN YPSILANTI AND ALL WOMEN ARE VERY CORDIALLY INVITED TO CALL AT OUR STORE FOR A SAMPLE OF GOOD COOKING AT ANY TIME OR TIMES DURING THESE THREE DAYS. FOLLOWING ARE A FEW PIECES THAT WILL BE SHOWN:

"WAGNER" CAST ALUMINUM WARE

LIPPED KETTLES

Aluminum kettles are the most serviceable in the market. They are adapted for all purposes. They heat very rapidly, requiring less fuel than any other style kettle. They do not scorch foods as easily as other metal and are not affected by acids, nor is there any enamel to chip off.

TEA AND COFFEE POTS

Rubberoid Handles

These are cast in one piece and are absolutely without a seam or rivit, except the rivit used to connect the lid. Their construction, combined with the durability of aluminum, makes them practically indestructable, and the best on the market.

SKILLETS

Rubberoid Handles

These are without a doubt the handsomest skillet in the market. It is our own special design. It has round sides and a rim on the bottom to equalize the heat.

SPOON WITH HOOK

The hook prevents the spoon from sliding into the vessel or dish and is also used as a finger piece to prevent the spoon from turning when stirring batter.

LONG HANDLED LADLE

For Punch Bowls or Kitchen Use

Fruits and acids have no effect on Aluminum Ladles.

TOM AND JERRY LADLES

With Hook

Size 11½ inches

This is a very serviceable and convenient ladle for use in the kitchen.

NEW SAFTY TEA KETTLE

A novel feature of our new Tea Kettle is the lid, which is opened and closed by pressing the bail. This makes it impossible to burn or scald the hands. With this device the Tea Kettle can be as easily filled from a faucet as any other way.

RICE BOILER AND COMBINATION SAUCE PAN

This Rice Boiler is the most beautiful in design as well as practical, and will outwear any other style boiler. It will cook rice and cereals to perfection, and in less time than any other make. It is impossible to scorch food cooked in it. The lid to the top pan which is made of heavy spun aluminum, will fit the cast aluminum bottom and either may be used as a sauce pan for general cooking.

SAUCE PANS

Deep sauce pans and flaring sauce pans with rubberoid handles.

CUPS

Size of bowl 2x2¾ and 2½x3⅞ inches

These cups are cast in one piece and have no seams or rivits. They are desirable particularly for public drinking fountains as they are almost indestructible.

SOME OF THE REASONS WHY ALUMINUM COOKING UTENSILS ARE THE BEST:— 1. They are light in weight, bright as silver and are absolutely pure and wholesome. 2. There is no enamel or plating to wear or flake off; the finish is the natural finish of the metal. 3. They will not burn or scorch food so easily as other metal. 4. They retain heat longer than any other metal. 5. They do not contain or form any of the poisonous substances found in tin, copper and enameled ware. 6. There are no joints, seams or solder to leak and give trouble.

"Wagner" Cast Aluminum Ware, being a thoroughly hybiene utensil, should, and is, rapidly taking the place of copper, tin and enameled ware.

Have you ever examined the particles of enamel that so frequently break off enameled ware and become mixed with food? It does not require a microscope to see how nearly they resemble particles of broken glass. Certainly no person ought to take the chances of allowing anything of that nature (virtually broken glass) to become mixed with their food.

Besides other advantages we call attention to the durability of this ware, all of it being cast in one piece, and the thickness of the different parts are properly proportioned. The bottom, and parts that are usually the weakest in other, or especially stamped ware, are made extra heavy, making it almost indestructible.

This taken into consideration, it will be found to be economy to buy Cast Aluminum Ware, as it will last a lifetime, and always be in repair.

No other ware has been awarded so many medals and diplomas as "Wagner" High Grade Iron and Cast Aluminum Cooking Utensils.

It has been exhibited at all the leading fairs and expositions.

The popularity of the "Wagner" Cooking Utensils has been won through true merit in all the articles made under this brand.

In this ware the highest perfection has been attained.
